Cystistat
**restores the
urine-tissue barrier**
Radiation Induced
Cystitis

BIONICHE
PHARMA GROUP LIMITED

cystistat[®]

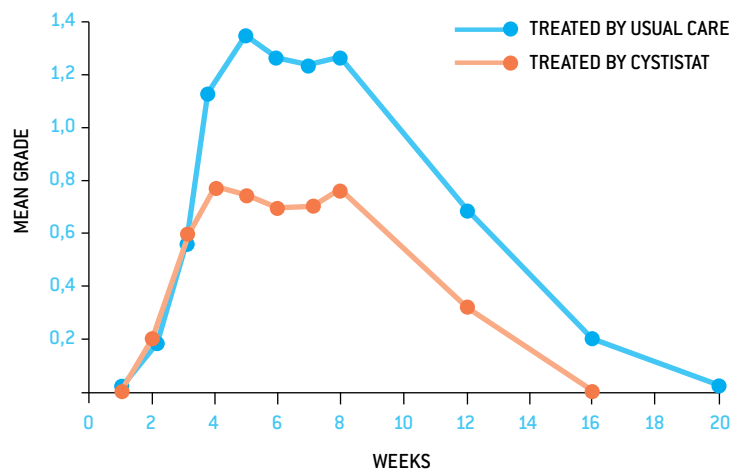

Get on with life.

Radiation Induced Cystitis (RIC) can prevent or limit the completion of the radiation treatment.

CYSTISTAT REDUCES RADIOTHERAPY TOXICITY*

Comparison of the radiation toxicity grading in patients treated by Usual Care (UC) and Cystistat over time.

By protecting the bladder, Cystistat has shown its efficacy in the prevention of RIC in patients receiving pelvic radiation therapy.
